Cutting Guides

Beary Cute DSP - 6" x 12"

Note Cards - 4

Envelopes (5-3/4" x 4-3/8") - 4

Ribbon -

Belly Band - 2" x 11"

Focal Point for your gift - Up to you

Instructions

Put your notecards/assorted Memories together first.

1. Crease your cards with a bone folder.
2. This will be where you create your notecards to put in the pockets.
3. I took a card from the Beary Cute Memories (3" x 4"). Added a coordinating piece of cardstock (3-1/4" x 4-1/4"). Adhered together and then on the notecard.
4. Add your embellishments to your cards

Put the Pocket holder together.

- Cut your 12" x 12" DSP in half.
- Put the 12" at the top of the Scoring Tool. Score at 3", 3-1/4", 7-1/2", 7-3/4".
- Score the Belly Band (2" by 11") at 3", 3-1/4"
- Crease folds well.

Put Together the Envelopes

- The envelopes will form an accordion
- Seal all 4 envelopes
- Put the sealed end at 4" and cut. (taking off about 3/8")
- Stack your envelopes
- Adhere tear & tape to all four sides. (you need about 1-1/2"-2" of tape on all the sides). Lay the 1st envelope tape side down.
- On the second envelope, add tear & tape on the top and bottom. Lay this envelope on the first one.
- On the third envelope, add tear & tape on the top and bottom. Lay this envelope on the second one.
- On the fourth envelope, add tear & tape on the top and bottom. Lay this envelope on the third one. Add tear & tape to the top of the envelope on all 4 sides. (Yes, this envelope has adhesive on the front and back.)

Instructions Continue

Adhering Envelopes to the Pocket Holder

- Open the Pocket holder so it lays flat. The 6" side is on top. (3" score line close to the top).
- Adhere envelopes Inside the cardholder between the 3-1/4" and 7-1/2" score lines.
- Starting with your last envelope with all 4 sides of tape, adhere it to the middle of the Pocket Holder.
- Adhere the next envelope to the top of the first one. (2 pieces of tape)
- Adhere the next envelope to the top of the second one. (2 pieces of tape)
- Adhere the last envelope. Take off the adhesive of the last envelope. (Tricky Part!) Stand the Pocket Holder on the bottom scored lines and adhere to the last envelope to the DSP of the Pocket Holder.
- Put your cards in the envelopes.

Add Belly Band

- Decide what you want on the front of your Pocket Holder.
- When using Cardstock, put the scored part to the top of your card, allowing the top to fall to the back of the holder. (Score at 3" and 3-1/4")
- Hand crease the bottom of Belly band and adhere it together.
- Decorate the front. Remember to Embellish! (I stamped mine with VersaMark and added white embossing powder and some Glitter Sequins)
- When using Ribbon, Tie your bow. (Or use the Designer Tags)

Viola, you are done!
